

setUserActionList

```
graph LR; A[setUserActionList] --> B[addUserActions]; B --> C[addUserAction]
```

A flowchart illustrating a sequence of three actions. The first action, 'setUserActionList', is contained within a gray rectangular box. A dark blue arrow points from this box to a white rectangular box containing the second action, 'addUserActions'. Another dark blue arrow points from the 'addUserActions' box to a final white rectangular box containing the third action, 'addUserAction'. All boxes have a black border, and the arrows are solid dark blue lines.

addUserActions
